

Recruitment of Faculty Members for the Department of Digital Innovation, Faculty of Interdisciplinary and Co-Creative Innovation, Teikyo Heisei University

Affiliation	Department of Digital Innovation, Faculty of Interdisciplinary and Co-Creative Innovation (Ikebukuro Campus)
Position and Number of Openings	Professor, Associate Professor, Lecturer or Assistant Professor : several positions
Reason for the call	Vacant position
Qualification for Application	In principle, applicants must meet the following requirements: (1) Hold a master's degree or higher (2) Have a research background in information and digital technologies, with demonstrated research achievements in digital technologies, artificial intelligence (AI), data science, or related fields, or have demonstrated research achievements in applying these technologies to areas such as health and healthcare, sports, business, media, or related domains. (3) Be committed to education and student mentoring in accordance with the founding principles and educational mission of the University. (4) Be able to teach the courses listed under “Expected Responsibilities (Courses to be Assigned).” Applicants who meet the following requirements, or who possess equivalent qualifications and experience, are preferred: (5) At least three years of teaching experience at the rank of Assistant Professor or above at a university. (6) A record of at least three peer-reviewed publications, including at least one peer-reviewed publication published within the last three years. (7) Experience in education and student support activities, such as teaching seminar-based courses and career development courses, and providing support for international students. Note: As the Department of Digital Innovation, Faculty of Interdisciplinary and Co-Creative Innovation, is currently in the process of establishment and has not yet reached its completion year, appointment to this position is contingent upon approval through the AC Review (Faculty Review under the University Establishment Aftercare Process Prior to the Completion Year) conducted by the Ministry of Education, Culture, Sports, Science and Technology (MEXT) and the Council for University Chartering and School Corporation . Specifically, the successful candidate must be judged as "Qualified" for the proposed academic rank and "Approved" for the courses to be assigned. The academic rank at the time of appointment will be the rank for which the candidate is determined to be "Qualified" through the AC Review.

Expected Responsibilities (Courses to be Assigned)	The successful candidate will be expected to teach multiple courses, according to their area of expertise, from among the following: • Information and computing-related specialized courses, including programming, data science, artificial intelligence (AI), machine learning, statistics, computer networks, databases, information systems, and management information systems; • Practice-oriented courses related to health and healthcare, sports, business, and media; • Academic and career development support courses, including seminars, career design, and internships; and • Research supervision courses, including seminars and undergraduate thesis/project supervision. After appointment, the successful candidate may also be assigned to teach information science courses in the Graduate School of Information Sciences, as well as courses in the Distance Education Program, including report-based courses and face-to-face intensive courses, in accordance with their area of specialization.
Application Deadline	Friday, October 30, 2026
Appointment	The appointment will take effect after the candidate has been notified of a favorable outcome in the 2026 AC Review, specifically, qualification for the academic rank and approval to teach the assigned courses. If the AC Review is conducted in November 2026, the appointment is expected to commence in April 2027. If the candidate undergoes the 2027 AC Review, the appointment is expected to commence in or after July 2027.
Type of Employment	Full-time (to be renewed every year) ※contract may be renewed up to 2 times ※after 2 times of renewal, it may be further renewed after evaluation After evaluation, there is a possibility of extension or conversion to a contract until retirement age.
Application Documents	(1) CV Please use the specified format (2) All certificates of the degrees obtained, or copies of the diplomas (3) Copies of certificates of qualifications held (all qualifications listed in the resume/accomplishments document) (4) Research accomplishments Please use the specified format (5) ID Photo W3cm×H4cm (Must be in color taken in the last 3 months and please do not glue it to your resume; attach it separately.) Submit 1 for each of the above Documents to be submitted must be written in Japanese (titles of degrees can be in English). All documents must be printed on one side of A4 paper and do not staple the documents together. Use registered mail and do not send documents separately. Courier service is acceptable. Write on the envelope in red; “Enclosed inside are the required documents for a teaching position at the Department of Digital Innovation , Faculty of Interdisciplinary and Co-Creative Innovation ” Application documents will not be returned to the applicant.
Selection Process	Interview will be conducted for those who passed document screening. Date of interview is undecided. Necessary expenses for the interview, such as travel and accommodation, will be borne by the applicant.
